# Bahn Sliding Door Cabinet

## Features

A practical and durable storage solution designed for modern office environments. With its space-efficient sliding doors, it's ideal for areas where hinged doors aren't suitable. The cabinet's all-steel construction ensures long-lasting performance, while the built-in acoustic panelling helps reduce noise, contributing to a quieter workspace. With lockable doors and adjustable shelving, it offers secure and flexible storage options. An optional planter box enhances the aesthetic appeal and introduces a touch of greenery into your office.

## Specification

- All steel construction
- Lockable
- All panels replacable & recyclable
- 1 adjustable shelf either side
- Adjustable feet for leveling
- Master key or keyed alike
- With Planter Box – 5 Pots (option)

# Cable Management Baskets

## Features

Cable Management Baskets offers greater use in managing cables, plus the flexibility of two new vertical mounting brackets allowing the installer to switch between a two-tier basket to a single tier basket.

The mounting brackets screw to the underside of the workstation or back into the modesty panel & allow the basket to snap into the bracket. These baskets can also be cut to a custom length.

# Axess Ceiling Umbilical

## Specifications

Designed for power and data cable management

The Axess system features two modes:

Rigid Mode: Snap-together segments create a self-supporting cable column.

Flexi Mode: Snap-apart segments offer flexible cable management.

Innovative integrated doors provide easy cable access, making installation and maintenance simple.

Suitable for ceiling-to-desk or floor-to-desk cable routing
