Yuno Task Chair

The Yuno Task Chair is engineered for ergonomic comfort and long-term support, making it ideal for focused work in modern office environments. Designed to promote healthy posture throughout the day, it features adjustable lumbar support, a synchro tilt mechanism, and height-adjustable armrests that allow users to personalise their seating position for maximum comfort. Its clean, contemporary design integrates seamlessly into collaborative workspaces, private offices, and open-plan settings.

Built for durability and everyday performance, the Yuno Task Chair combines high-quality moulded foam cushioning with a strong nylon base and smooth-rolling castors for effortless mobility. The responsive ergonomic features adapt to the user's movements, helping reduce fatigue during extended periods of sitting.
